

CLAIMS

1. An antiaging cosmetic composition for the skin, characterized in that it comprises at least one
5 rhamnose compound RROPs, one fucose compound FROPs and a cosmetically acceptable excipient.
2. The cosmetic composition as claimed in claim 1, characterized in that it comprises, relative to the
10 total weight of the polysaccharide mixture, 1/10 of rhamnose compound RROPs and 9/10 of fucose compound FROPs.
3. The cosmetic composition as claimed in claim 1,
15 characterized in that it comprises, relative to the total weight of the polysaccharide mixture, 1/5 of rhamnose compound RROPs and 4/5 of fucose compound FROPs.
- 20 4. The cosmetic composition as claimed in claim 1, characterized in that it comprises, relative to the total weight of the polysaccharide mixture, 1/3 of rhamnose compound RROPs and 2/3 of fucose compound FROPs.
- 25 5. The cosmetic composition as claimed in claim 1, characterized in that it comprises, relative to the total weight of the polysaccharide mixture, 1/2 of rhamnose compound RROPs and 1/2 of fucose compound
30 FROPs.
6. The cosmetic composition as claimed in claim 1, characterized in that it is suitable for topical application, especially in that it is in the form of a
35 cream.
7. The cosmetic composition as claimed in any one of claims 1 to 6, characterized in that the

oligosaccharide mixture is used in a proportion of between about 0.1% and 10% by weight relative to the total weight of the composition.

- 5 8. The use of the cosmetic composition as claimed in any one of claims 1 to 7, characterized in that it is intended for antiaging action on the skin.
- 10 9. A cosmetic treatment method for the skin, characterized in that a cosmetic composition comprising at least one polysaccharide mixture as defined in any one of claims 1 to 7 is applied to the skin.
